Scheme for widening Kumbargundi Road, Bangalore city

Sl 139) The Municipal Commr Bangalore city
" Comptroller through his El Lett
Dir[redacted]-GPB-15000-7 7-[illegible]-calth
" Chief Engineer
No L6344-7 dy 14-3-35

Sanctions the scheme, to be executed through the agency of the Municipality that an advance of Rs 50,000 be [illegible] out of the ML [redacted]

For widening Hunsur Road

L 3887

3 to 1

General and Revenue Secretariat — File No 93 of 193 3 — [App F III—2

Serial No	
69	Letter no 4 To 272 dated 14/2/34 from the Municipal Commr, Bangalore city forwarding copy of the resolution passed by the Council that the scheme for the acquisition of properties required for widening Hunsur Road etc at a cost of Rs 1,43,974 be kept over for the present on account of financial stringency and recommending that the properties be acquired.—
	1 The Commr recommends that the properties be acquired, the road widened and the sites formed and disposed of by Government as the scheme is a very important one and will not involve Govt in any loss being self-supporting and adds that it will also considerably improve the area around the Townhall
	2 If the recommendations of the Commr were to be accepted, from what source the cost of acquisition viz Rs 1,43,974 has to be met in the first instance has to be settled
A	3 The Chief Engr and Financial Secy may if approved be consulted + Subsidies for orders
	20/2/1934 AM
	5) Details are perhaps required to show how the scheme will be a self supporting one, in case the proposal is to be by the PWD and if so

Returned with compliments -

52 The Municipality is not in a position to take up this scheme Out of the loan sanctioned by Government a sum of Rs 4 00 000 has already been utilised the remainder of of Rs 5 00,000 has not yet been drawn This amount has been ear-marked for specific purpose viz for improving the drainage and water supply in the City An estimate for Rs 1 64 000 for improving the main drain has been sanctioned by Government Moreover the Water Supply Department have sent up another estimate for Rs 3 00 000 for improving the water supply to Basavangudi The cost of these improvements will have to be met out of the loan No portion of the loan will be available for financing the scheme

53 As regards the value of lands it is true that the shop sites on the north of new Silver Jubilee Park road fetched as much as Rs 33 per sq yd but the area proposed to be acquired is agricultural lands used as gardens and the lands have been valued as agricultural lands The houses standing on them are mostly mud roofed or pot tiled houses The amount of compensation has been estimated at R 2,000 per acre in the case of garden lands and Rs 1,000 in the case of other dry lands It is at this rate that we have paid compensation for the lands acquired for the Narasimharaja Road The estimate appears to me to be reasonable

55 I think the acquisition of this area of land cannot be permitted to be done until the financial position of the municipality improves sufficiently to admit of its taking up the acqn The Kumbara puram road is a very important road and carries heavy traffic It will become still more important when the Town Hall is completed and put into use. The widening of the road will therefore be an urgent work

56. The total cost of acquiring the land, widening the road and forming building sites is about Rs ~~1,00,000~~ 1,43,000 I gather that the work could be carried out at about Rs 33 per square yard A return of Rs 38 or Rs 44 per square yard ~~could be obtained~~ (which is the low estimate of the municipal engr) will meet the entire ~~charges~~ cost and yield a handsome surplus And if, as is not unlikely, the return is anything like what was obtained ~~at~~ a recent auction of land in the neighbourhood, the scheme will be a very highly remunerative one

57 I think the municipality ~~could~~ may be told that the Govt will be prepared to grant a loan to them ~~of~~ for about Rs 125000 ~~for the scheme~~ at 5% ~~on~~ in order to enable them to go on with the work if they are unwilling to take a loan, then the ~~Govt may~~ take up the scheme themselves and

~~repayable in~~ 10 years

19 MAR 1935

Submitted to His Highness

I submit herewith a Final Note by the Second Member of Council regarding the acquisition of properties required for widening the Kumbaragundi Road, Bangalore City, for His Highness gracious perusal

Mirza M Ismail
Dewan
25-3-35

Final Note by the Second Member of Council

Subject —

Acquisition of properties required for widening the Kumbaragundi Road, Bangalore City

These papers relate to the scheme for the acquisition of properties required for widening the Kumbaragundi Road, Bangalore City

The question of widening the Kumbaragundi Road and improving its surroundings by laying out the area on both sides into building sites, at an estimated cost of Rs 1,43,974, was considered by the Bangalore City Municipal Council and they resolved that, in view of the heavy expenditure required for executing the scheme and the paucity of funds with the Municipality, the scheme may be taken over by Government and executed out of State Funds

After discussion of the matter by the Dewan with the Municipal President and the Municipal Commissioner, it was decided that the scheme should be taken up by Government and financed out of State funds, the realisations from the sale of the sites being credited to Government It was also decided to get the work executed through the agency of the Municipality and to place an advance of Rs 50,000 at the disposal of the Municipal Commissioner for starting and proceeding with the work In view of the urgency of the matter, orders sanctioning the scheme have been issued in anticipation of His Highness' approval

The papers are now submitted for the gracious perusal of His Highness

Jagadagopal

CHIEF SECRETARY 15 FEB 1934

Sir,

In connection with the acquisition of certain properties required for widening Kumbargundi Road and for laying out the whole area on either side of road into sites necessary plans and valuation statement for Rs 1,43,974/-// were placed before the Managing Committee for approval clearly explaining that the scheme is a self supporting one But the Committee at their meeting held on 12-6-1933 resolved that the matter should lie over for the present on account of financial stringency and the Municipal Council at their meeting held on 8-7-1933 approved of the above recommendation of the Managing Committee

Copies of the resolutions of the Managing Committee and of the Council are herein enclosed for -- information

I recommend that the properties be acquired, the road widened and the sites formed and disposed of by Government as the scheme is a very important one and will no involve Government in any loss being self supporting ~~one~~ It will also considerably improve the area round the Town Hall

I have the honor to be,
Sir,
Your most obedient servant,

Municipal Commissioner

Sir

With reference to your letter No L 6837/M L 33-33-82 dated I4-3-34 regarding the scheme for the acquisition of certain properties required for widening Kumbaragundi Road, requesting to stat what prperties are to be acquired and what the proposed lay out is, I have the honour to forward herewith a statement showing the properties to be acquired and a plan showing the proposed lay out

As per report of the Municipal Engineer (Vide Copy enclosed) the amount to be spent works out at a rate of Rs 3-3-o per square yard This will be a self supporting scheme as a rate of Rs 3-8-o to Rs 4-o-o per square yard may be easily realised by the sale of the sites in this area which is so close to the City and to Visweswarapuram

I have the honour to be
Sir
Your most obedient servant,

Municipal Commissioner

Copy of memo No M E F II27 dated I5-5-33 from the Municipal Engineer to the Municipal Commissioner City Municipality Bangalore

~~Submitted to the Municipal Commissioner~~

A plan and a valuation statement for the properties to be acquired on Kumbaragundi Road are herewith submitted as called for in memo No K T. 578 dated I4-2-33 The scheme has been divided into two portions

(I) Widening and improving Kumbaragundi Road to 70 feet Road

(2) Acquiring the properties to a width of I00 feet on either sides of the road for laying out sites

2 (a) The Cost of acquiring the properties for making the road 70 feet wide will be Rs ---------- I9 665/-

(b) Forming the foot paths with earth filling and kerbing on either sides of the road ------ 3 2I8/-

(c) Covering over the main drain in the widened portion I,000/-

(d) Metalling the widened portion ---- I 400/-

(e) For tarring the widened portion ----- I 750/-

The total cost for widening and improving will be Rs 27 033/-

This amount will have to be added on to the value of the sites as the road will improve the value of the properties on either sides

3 The cost of acquiring a space of I00 feet width on either sides of the road for forming sites Rs I 07 I9I/-

For laying 9" pipe line with man-holes at an interval of 200 feet apart for carying the sewage of the sites allotted " " 9,750/-

So the total cost for the complete layout of an area of 44 89I Square yards will be Rs I 43 974/-

4 The area on which the sites can be formed is 44 89I square yards on either sides of the road against the estimated invsetment of Rs I 43 974/- Hence this will work out a rate of Rs 3-3-0 per square yard The rate for the garden land is provided as Rs 2 000 per acre as the same rate has been paid for previous acquisitions of lands for Hosakota Road shop sites

A reference may kindly be made to the Lal-Bagh authorities to verify the rates provided for the plants of different kinds and for the ~~grapes~~

for the grape gardens etc or

Through the President, Bangalore City Municipal Council.

Sir

With reference to the correspondence ending with your letter No C Te 378, dated 12th May 1934 recommending sanction to the acquisition of certain properties required for widening Jumbaramundi Road, I am directed to state that the Chief Engineer, who was consulted in the matter, states that the land on both sides of the main drain is low-laying and damp with intensive garden cultivation on both sides of the road where heavy manuring is done, that the sites adjoining the main drains are not likely to fetch good rates as house sites and that if these sites are to be built upon it will be necessary to insist on a suitably higher plinth (basement) It is, therefore, doubtful whether the sites, especially those that are near the main drain or are situated on its banks, will fetch the higher prices assumed, viz., Rs 3-8-0 to Rs.4-0-0 per square yard, and I am to request you to work out the financial effect taking the above aspects into consideration and then resubmit the proposals for the orders of Government

The records received with your letter are returned herewith

I have the honour to be,
Sir,
Your most obedient servant,

Ajuctan Rao
Chief Secretary to Government

(thro' Mr Hensman)

Sir

With reference to the correspondence ending with your letter no G To 378 dated 12/5/34 recommending sanction to the acquisition of certain properties required for widening Kumbaragunda road, I am directed to state that the Chief Engineer, who was consulted in the matter states that the land on both sides of the main drain with is low-lying and damp

intensive garden cultivation on
both sides of the road where heavy manuring
is done, and that the sites adjoining
the main drains are not likely to
fetch food rate as house sites, and that if these
sites are to be built upon it will be necessary
to insist on a suitably high plinth (basement)
~~under the circumstances I just consider~~
It is therefore doubtful whether the sites, especially
those that are near to the main
drain or are situated on its banks,
will fetch the high prices assumed
Vis Rs 3-8-0 to Rs 4-0-0 per sq yard and I am
accordingly to request you to ~~take the~~
~~considerations referred to into consideration~~
~~and~~ (work out the financial effect taking the above aspect of the
case into consideration,
and then submit the proposal for the
orders of Govt

The records received with your letter
are returned herewith

Thanks

To

Rajasevasaktha
R Ranga Rao, Esq, B A, B I,
Chief Secretary to the Government of
His Highness the Maharaja of Mysore
Bangalore

Sir

With reference to your letter No L 1005/ML 33-33-131 dated the 8th August 1934 returning the proposals for the acquisition of certain properties required for widening the Kumbargun Road and asking me to work out the financial effect of taking into consideration the opinion of the Chief Engineer regarding the value of sites, I have the honor to state that I have examined the question in the light of the observations made by the Chief Engineer This area is developing very rapidly The open main drain that is runn ng in this area will soon be converted into an under-ground sewer and there is every reason to believe that this area will soon develop into a business centre I have been selling the shop sites formed on the New Silver Jubile Park Road for the last three days The prices realised range from Rs 29 to Rs 33-14-0 per square yard and the average works out at Rs 31-7-7 per square yard. The nature of the soil of these sites is about the same as that met with in the neighbourhood of the Kumbargundi Road

In view of this experience, I do not believe that the estimate of Rs 3-8-0 and Rs 4 per square yard made by my predecessor is by any means too high. So far as I can see, there very keen demand for sites in this locality and unless unforeseen circumstances intervene, I have no doubt that the sites will fetch more than their estimated value

I

ML 33-33-138

Corresp^ce finding with letter No
L 1-589 dated 22 12 34 from the
Municipal Comm^r, Bangalore City, on the
question of acquiring certain property
in the neighbourhood of the Hunsur
Guttur Road

Order L 6344-47 of 14/3/35

The Hunsurguttur Road is an
important thoroughfare in the
Bangalore City giving direct access
from Visveswaram and Basaveswar
to the Public offices, the London
Mission and the Wesleyan Mission High
Schools the Central College and the
Cubbon Park and it will become
still more important when the Town
Hall and the Municipal offices
which are now under construction
are completed Notwithstanding its
importance, the road is a narrow
one and the area through which it
runs is full of poor houses and
houses of an inferior class

The Question of improving the neighbourhood was considered by the Municipality and they are of opinion that the road should be widened and that both the area on either side of the road should be converted into healthy building sites. In view of the heavy expense which the Municipality have already undertaken, the suggestion that the access road scheme may be taken up by Govt and financed out of State funds [illegible] the Municipality and the provision [illegible], Govt are pleased to accept the suggestion of the Municipality. The scheme will however be executed by the Municipality who will, for that purpose, act on behalf of the Municipality Govt. All expenditure will be met out of State funds and all realisations will be credited to Govt. The Controller is requested to place an advance of Rs 50,000 at the disposal of the Municipality Municipal Com-

in accordance with a scheme which has been approved by them

In order to proceed- on all hands to proceed with the work expeditiously the Minister of Works, in consultation with the Chancellor and the D of H. take immediate steps to carry out the Scheme and will submit weekly reports of progress to Govt

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS
THE MAHARAJA OF MYSORE

Correspondence ending with letter No I 1-537 dated 22nd December 1934 from the Municipal Commissioner, Bangalor City, on the question of acquiring certain properties in the neighbourhood of the Tumbergundi Road

---

Order No: L6344-47
Rul 33-33-138

Dated, Bangalore, 13th March 1935
14

The Tumbergundi Road is an important thoroughfare in the Bangalore City giving direct access from Visvesvara-puram and Desavangudi to the Public Offices, the London Mission and the Wesleyan Mission High Schools, the Central College and the Cubbon Park and it will become still more important when the Town Hall and the Municipal Offices which are now under construction are completed Notwithstanding its importance, the road is a narrow one and the area through which it runs is full of poor houses and houses of an insanitary character The question of improving the neighbourhood was considered by the Municipality and they are of opinion that the road should be widened and that the area on either side of the road should be converted into healthy building sites in accordance with a scheme which has been approved by them In view of the heavy expenditure which the Municipality have already undertaken, they suggest that the scheme may be taken up by Government and financed out of State funds As the work is urgent and profitable, Government are pleased to accept

the suggestion of the Municipality The scheme will however, be executed by the Municipality who will, for this purpose, act on behalf of the Government All expenditure will be met out of State funds and all realisations will credited to Government The Controller is requested to place an advance of Rs 50,000/- at the disposal of the Municipal Commissioner in order to enable him to proceed with the work expeditiously. The Municipal Commissioner will, in consultation with the Chief Engineer and the Director of Health take immediate steps to carry out the scheme and will submit monthly reports of progress to Government

By order and in the name of the Governor of Mysore,

Ashoka Raj
Chief Secretary to Government

To The Municipal Commissioner, Bangalore City,
The Treasurer, City Municipal Council
Controller to Government through the Financial Secretary
Director of Health and Family Welfare.
Chief Engineer of Works.

Notes

Annually changeable

5 mm Ring and spoke Cinders

One Stone revetted well of 35' 0" deep.

Covering slab over the well

5 × 16½ × 2 = 165 over revetment

1 × 10 × 2 = 20 2 × 21½ × 2 = 86

1 × 18 × 2 = 36 1 × 14 × ½ = 21

Iron slab

2 × 9 × 3 = 54 2 × 16½ × 2 = 67

1 × 10 × 2 = 20 6 × 9 × 2 = 108

1 × 9 × ½ = 4½ 2 × 10 × 2 = 40

1 × 10 × 1 = 10 16 × 10 + 7 × 2 = 27½

overreach 3 Slab 5½

Revetment on the east of well Abut

2 × 21½ × 1½ = 129

1 × 15½ × 1½ × 2 = 46 5

1 × 18 × 2 × 18 + 11 = 522 00

1 × 12 × 2 × 11½ 216

1 × 23½ × 2 × 7 + 11 = 623

1 × 25½ × 2 × 18 + 11 + 7 = 612½

1 × 5 × 2 × 7 = 70
